Who Killed Thomas Merton?

A Book Review Excerpted from Catholics Against Militarism Blog

Volume 34, Issue 1,2 & 3, March 30, 2020
By Emmanuel Charles McCarthy

The Martyrdom of Thomas Merton - Paperback - March 7, 2018 by Hugh Turley, David Martin

I read this book cover to cover and it is a solid presentation of the logically unbridgeable abyss between the physical evidence that is available for anyone to examine and the official story put out by the U.S. Government and the Church regarding Thomas Merton's death.

Seldom can one predict that a book will have an effect on history, but this is such a work. Merton's many biographers and the American press now say unanimously that he died from accidental electrocution.

From a careful examination of the official record, including crime scene photographs that the authors have found that the investigating police in Thailand never saw, and from reading the letters of witnesses, they have discovered that the accidental electrocution conclusion is totally false.

The widely repeated story that Merton had taken a shower and was therefore wet when he touched a lethal faulty fan was made up several years after the event and is completely contradicted by the evidence. Hugh Turley and David Martin identify four individuals as the

primary promoters of the false accidental electrocution narrative.

Another person, they show, should have been treated as a murder suspect. The most likely suspect in plotting Merton's murder, a man who was a much stronger force for peace than most people realize, they identify as the Central Intelligence Agency of the United States government.

Thomas Merton was the most important Roman Catholic spiritual and anti-warfare-state writer of the 20th century and the powers-that-be in the corporate world, in the military world, in the world of the CIA, FBI and NSA and in the world of government were as acutely aware of the power he possessed to undermine their bloody profit making schemes as they were of King and Kennedy's power to do the same.

To date, Merton has been the subject of 28 biographies and numerous other books. Remarkably, up to now no one has looked critically at the mysterious circumstances surrounding his sudden death in Thailand. From its publication date on the 50th anniversary of his death, into the foreseeable future, this carefully researched work will be the definitive, authoritative book on how Thomas Merton died.

What concerns me is not that the U.S. government had a hand in Merton's murder and cover-up of the murder. Clandestinely murdering innocent people is the ordinary modus operandi of all major governments all the time.

What concerns me is that the leadership of the institutional Church acquiesced to a narrative regarding the murder of one of its own, which narrative cannot be sustained, indeed is in contradiction to, the evidence.

Of course, maybe the leadership of the institutional Church did not see Merton as one of its own but saw him rather as a hair shirt of truth to whom they were glad to say, ever so piously, "Good riddance."
